

BALAJI P

Software Engineer | Full-Stack Developer | AI/ML

✉ balajikrishnan031@gmail.com | ☎ +91 9342636595 | 📍 Tamil Nadu | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

SUMMARY

Final-year Computer Science Engineering student with an 8.34/10 CGPA and hands-on experience independently building AI-powered and full-stack applications. Proficient in Python, JavaScript, React, Node.js, Next.js, SQL, MongoDB, NLP, and AI API integration, with experience developing intelligent document automation systems and AI-powered applications such as Docmind AI and KEFFI AI. Demonstrated project impact through a 60% reduction in manual document processing effort. Seeking a Software Engineering role to build scalable software products.

EDUCATION

B.E. Computer Science and Engineering (Honours) | [University College of Engineering, Panruti](#) — Anna University

2023 – 2027 | **CGPA: 8.34 / 10**

INTERNSHIP

Python & AI/ML Developer Intern | [CodeBind Technologies](#) — Chennai, India

Jun – Jul 2026 | Chennai, India

- Developed Docmind AI for multi-format text extraction and document classification using Python, EasyOCR, OpenCV, and Machine Learning algorithms.
- Implemented NLP semantic classification pipelines to organize unstructured documents into taxonomies; completed Corporate Training certification.

Digital Marketing & AI Intern | [TVK Technologies](#) — Chennai, India (Remote)

Jun – Jul 2026 | Chennai, India (Remote)

- Developed AI-assisted digital marketing workflows using Generative AI tools and prompt engineering to automate content creation tasks.
- Analyzed campaign performance and user engagement metrics to optimize digital content distribution across multi-channel platforms.

PROJECTS

KEFFI AI — AI Mental Health Support Platform | [Independent Project / Naan Mudhalvan – Niral Thiruvizha](#)

2026 | Stack: Llama 3.1 (Ollama) · Groq API · Node.js · Express.js · JavaScript (ES6+) · HTML5/CSS3 · MySQL

- Independently conceived and developed KEFFI, an AI wellness platform providing real-time conversational support, serving 50+ users at a state-level demo event, using a locally deployed Llama 3.1 LLM via Ollama as the primary model and Groq API as a secondary fallback service.
- Designed complete user flows and glassmorphic UI components in Figma; implemented responsive frontend with HTML5/CSS3/JavaScript.
- Presented to 10+ judges at Naan Mudhalvan event; awarded for Technical Excellence, UI/UX Design & AI Solution Planning.

Docmind AI — Intelligent Document Organizer | [Independent Project](#)

2026 | Stack: Python · EasyOCR · OpenCV · Natural Language Processing (NLP) · Machine Learning

- Engineered an automated document parsing pipeline for multi-format text extraction using Python, EasyOCR, and OpenCV.
- Implemented NLP-based semantic analysis and ML classification models to organize unstructured documents into taxonomies.
- Reduced manual document indexing and sorting effort by ~60% through automated batch-processing workflows.

SHIFTER — Full-Stack File Converter & Compressor Platform | [Independent Project](#)

2026 | Stack: Next.js 15 · TypeScript · Tailwind CSS · MongoDB · Sharp · FFmpeg · pdf-lib

- Developed a full-stack file conversion and compression platform using Next.js 15 App Router & TypeScript with glassmorphic UI.
- Integrated Sharp for image scaling, FFmpeg for audio/video transcoding, and pdf-lib for stream compression workflows.
- Built QR code tools and MongoDB conversion analytics tracker with memory-cache fallback.

Hospital Appointment Booking Agent for Elderly People | [HCL GUVI Internship Project](#)

Jan – Mar 2026 | Stack: Figma · HTML5 · CSS3 · UI/UX Design · Wireframing · Prototyping

- Designed a complete mobile app UI with 10+ screens in Figma catering to senior accessibility needs.
- Created wireframes, high-fidelity prototypes, and a reusable design system component library.
- Applied user-centered design principles — reduced the designed booking flow from 5 to 3 taps.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript (ES6+), C++, SQL

Frontend: HTML5, CSS3, React.js, Next.js, TypeScript, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB

AI & ML: Llama 3.1 (Ollama), Groq API, NLP, Machine Learning, EasyOCR, OpenCV

Tools & Cloud: Git, GitHub, Oracle Cloud (OCI), VS Code, Figma

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Foundations Associate — Oracle | Valid: April 2027
- Certificate of Appreciation — HCL GUVI Engineering Hackathon 2025 — UI/UX Design

ACHIEVEMENTS

- State-Level Presenter — KEFFI AI Platform, Naan Mudhalvan Niral Thiruvizha, UCE Panruti (2026).
- District Winner — Athletics (1500m Run Championship).
